

# MARYLAND PHARMACY PROGRAM

## Medicaid - Pharmacy Assistance – Pharmacy Discount

No. 5C  
Thursday, January 8, 2004

# **ADVISORY**

In an effort to give timely notice to the pharmacy community concerning important pharmacy topics, the Department of Health and Mental Hygiene's (DHMH) *Maryland Pharmacy Program* (MPP) has developed the **Maryland Pharmacy Program Advisory**. To expedite information timely to the pharmacy and prescriber communities, an email network has been established which incorporates the email lists of the Maryland Pharmacists Association, EPIC, Long Term Care Consultants, headquarters of all chain drugstores and prescriber associations and organizations. It is our hope that the information is disseminated to all interested parties. If you have not received this email through any of the previously noted parties or via DHMH, please contact the MPP representative at 410-767-5395.

### **PREFERRED DRUG LIST (PDL): LATEST CUMULATIVE UPDATE OF THERAPEUTIC CLASSES (TO BE IMPLEMENTED BY FEBRUARY 2004)**

The Department of Health and Mental Hygiene's Pharmacy and Therapeutics Committee has completed development of the first full set of classes for the Preferred Drug List (PDL). This Advisory #5C and the attached PDL supersede any former PDL versions. All Maryland Medicaid rules and edits remain in effect.

**Please note: The PDL will not apply to those patients currently under treatment using medications from the following two categories. The categories are:**

- **Selective Serotonin Reuptake Inhibitors (SSRIs)**
- **Stimulants and Related Agents**

**For new prescriptions for the above categories where the patient has no recent history (90 days) of therapy, the PDL rules will apply.**

Full consideration for the recipient continues to be a top priority. The prescriber and pharmacist are encouraged to review the available options for drug therapy within the Preferred Drug List. Recipients having problems obtaining prescribed medications from the pharmacy may call the Maryland Pharmacy Access Hotline at 1-800-492-5231. If you (the pharmacy) have any questions, contact the Department at 410-767-1455.
